SKILLS

Design tools:

- Figma
- Framer
- Microsoft Office 365
- Notion
- ProtoPie
- Visual Studio Code
- p5.js
- HTML/CSS/JavaScript
- Makey Makey
- Physical Prototyping
- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign
- Arduino IDE
- GitHub

AI & Workflow Optimization:

- Claude
- ChatGPT
- DeepSeek
- Gemini
- Dola

LANGUAGES

English, Chinese (Mandarin)

SUMMARY

- Interaction Design student (Sheridan IxD) skilled in UX research, wireframing, interactive prototyping, and usability testing.
- A thoughtful, detail-driven problem solver experienced in building intuitive interfaces and physical/digital prototypes using Figma, ProtoPie, and p5.js.

EDUCATION

Honours Bachelor of Interaction Design
Sheridan College | Oakville, ON Expected: Apr 2028

GPA 3.34/4.0

CERTIFICATIONS & LICENSES

ProtoPie 101 Crash Course
ProtoPie Nov 2025

UX Foundations: Logic and Content
LinkedIn Learning Oct 2025

TCPS 2: CORE 2022
Panel on Research Ethics (PRE) Jan 2025

IXD PROJECTS

Monet's Garden- Physical Rhythm Game (Academic)
Sheridan College Apr 2026

- Conceptualized and built an interactive physical-digital rhythm game integrating **Makey Makey** and **p5.js** to translate tangible touch into generative visual art.
- Conducted ergonomic usability testing using modular physical controls, such as wooden keys, capacitive foil, and floral sensors, to optimize tactile feedback loops.
- Programmed real-time visual logic and dynamic GLSL/**p5.js** color shaders triggered by ambient audio frequencies and user combinations.

Sound-Reactive Web Experience (Academic)
Sheridan College Mar 2026

- Engineered a dynamic audio-reactive web application using **p5.js**, transforming live microphone input and audio files into real-time geometric visualizations.
- Designed interactive voice-driven spatial layouts where user vocal amplitude and pitch dynamically modulate 3D geometry and particle behavior.
- Synthesized media art research (Bill Viola, Granular-Synthesis) to inform audiovisual pacing, loop structures, and spatial compositional balance.

UX Researcher & Designer - Legacy System Usability Study (Academic)
Sheridan College Dec 2025

- Spearheaded a mixed-methods usability evaluation (Heuristic Evaluation, Paper & **Figma Prototypes**) to assess learnability and task efficiency for legacy system UI patterns.
- Facilitated moderated user testing sessions with UXtweak using think-aloud protocols, evaluating quantitative metrics (completion rates, task

time) and qualitative insights.

- Identified key UX friction points in navigation hierarchy and system status visibility and delivered evidence-based design iterations to optimize user workflows.

Barrier-Free Haptic Navigation (Academic) **Sheridan College**

Oct 2025

- Developed a Persona Spectrum (Permanent, Temporary, Situational) and mapped user journey maps to solve motor and environmental accessibility friction
- Created a custom haptic feedback language based on Core Haptics and VibrationEffect parameters to map distinct vibration rhythms to turn signals
- Executed paper prototyping and usability testing with 5 participants, using physical pulse simulations to optimize directional clarity and reduce cognitive load
- Built high-fidelity iOS & watchOS UI prototypes in **Figma** and **ProtoPie** featuring thumb-zone ergonomics, voice controls, and low-power modes

LEADERSHIP EXPERIENCE

Social Media Operations

Chinese Students and Scholars Association (CSSA)

Mar 2026 - Present

- Managed daily content publishing and maintenance across multiple platforms, **WeChat**, including **WeChat Official Account, Bilibili, Weibo, TikTok, RED (Xiaohongshu), and Instagram**. Reaching an audience of 1,000+ Chinese campus members.
- Managed user communities, responded to comments and direct messages, and maintained account activity and engagement.
- Collected and organized user feedback to support content and engagement strategy optimization.
- Coordinated internal team communication to ensure timely content publishing.

EXPERIENCE

Team Member

Hult Prize 2025 Canada National Competition | McGill University

Mar 2025 - Apr 2025

- Responsible for user research and market analysis of team projects.
- Analyzed market size, competitive landscape, and target audience to inform business model design.
